

Don't speed off from that stoplight!

Take your time and do it right.

It's hot outside. Don't refuel!

Here's another helpful tip:

Do your shopping in one trip.

Wait 'til later when it's cool.

Clean Air Action Day?

Let the grass grow...

Make sure all your trips aren't far.

Ride your bike, don't take the car.

and wait 'til six before you mow.

Tell friends and family what you've learned,  
that a healthy planet must be earned.

catch the bus around the bend.

Take a walk to see your friend;

# What is air pollution?

Air pollution comes from things we use everyday like automobiles, lawnmowers, and fireplaces.

Air pollution is bad for you. It can hurt your lungs and make it hard to breathe.

**You can help fight air pollution!**

Watch for Clean Air Action Days on television, in the newspaper, and on the radio. A Clean Air Action Day informs you that the next day

will have elevated amounts of air pollution. Practice some of the tips in this coloring book to help fight air pollution.

**IT ALL ADDS UP TO CLEANER AIR**

# How everyone can help on Clean Air Action days and all year long.
